ABOUT LASC

For over three decades, LASC has been one of the nation's premier ESL institutes. Today, we are proud to continue that unparalleled tradition of excellence for an entirely new generation seeking to add full English fluency to their skill set.

Our students come to us from every possible background (from academics to professionals to diplomats) and every proficiency level (from complete beginners to current speakers). But like you, they all have the same goal of learning English for their future. We will help you meet - and surpass - that goal.

At LASC, we don't just teach you English... we teach you the most effective way to use English to improve every facet of your personal, educational, and professional life.

At LASC, we know that skills must be effectively applied to be of use. It is not enough to simply have knowledge about a subject because one must also be able to put into practice what he or she has learned. Thus LASC's program goes beyond merely focusing on memorization, theoretical concepts and/or general comprehension. LASC teaches students how to truly communicate well and achieve fluency in English.

And unlike typical ESL instruction, our curriculum is a living, growing, and evolving program. Our former graduates often return to contribute their real-life experiences. This continually refines our curriculum, so that the knowledge we pass on to you is always personalized, always relevant, and never outdated.

Since LASC is located in greater Los Angeles, one of the greatest cities of the modern world, our students can experience world-class education, science, history, art, culture, and of course entertainment. This provides a completely natural and ideal setting in which to absorb American culture as well.

Why entrust your education to lesser ESL courses, when LASC is dedicated to providing you with true learning excellence? Our school offers you an enthusiastic and supportive learning environment to maximize your learning potential.

After taking a break from college in Japan, I came to America just two months ago. My desire is to live overseas and this goal requires me to be fluent in English. I was supported by a reliable staff, including teachers and counselors. Thanks to a very friendly, relaxed atmosphere, the students are learning English. International friends from Korea, Thailand, Italy, and Portugal are all studying together in the Unites States, which gives us the opportunity to learn the culture of various countries, which makes me happy!

-- Sayaka Kai / Japanese

LASC's atmosphere is like home and the people are friendly, just awesome! They helped me adapt to American life. The native teachers and foreign students kindly assisted me in understanding my weaknesses. When I first came to LASC, I could not speak English at all. Now I am a confident English speaker. Thanks.

- Oscar Tri-mura / Italian
