"Inlingua is a special school. Before I arrive here I didn't have a rich cultural experience. As soon as I arrived, everybody welcomed me well. This school is clean and organized, it has excellent teachers and multicultural students. This experience is amazing, because it opens our minds to learn new things and accept differences.

Another crucial point, it has activities everyday, is close to the subway and several sights. I just have to thank all the people that make this place become unforgettable!"

METHODOLOGY AND LEVELS

METHODOLOGY

We offer a Robust, Well-Developed English Language Course at an Accelerated Pace

Based upon our marketing analysis, students enrolled in our Intensive Plus Programs and our Intensive Advanced Program progress up to 50% faster than in comparable programs in other schools. We help our students learn more quickly by applying accelerated learning techniques. Accelerated learning leads to faster results. But the depth of knowledge does not get lost in the mix – so while it's accelerated, students are learning on a deeper level, something that is fundamentally life changing and enriching. Our robust, rich, thoroughly developed curriculum makes us the premier language institute in Washington DC. We're different than the other schools, and so are our students: we offer a depth of learning they want – and need – at an accelerated pace.

We Use A Smarter Teaching Model – “The Communicative Method”

The communicative method enables students to own the language learning experience, meaning that they are constantly practicing their English skills in a fun and interactive way. Teachers serve as guides to help students take full ownership of the language, thus allowing students a greater role in language acquisition. Learning in the classroom at Inlingua is more authentic, rewarding, and life-changing, thanks to the communicative approach.
