Improve your English faster at SELC

Accelerated Academic Progress

SELC has 4-week terms for most programs, giving more motivated students the opportunity every four weeks to progress faster through class levels based on their individual progress. Students can also change their individual study plan to experience the full range of our English language programs.

Progress Testing and Individual Academic Progress Report

As part of SELC'S first day placement test, arriving students have their English level checked and their goals are discussed in a one-to-one interview with a SELC teacher.

From the beginning of their program, students have the opportunity to focus on developing the skills which need extra work.

The Student Progress Report essentially provides students with an ongoing snapshot of their development in all skills and is useful in identifying areas of weakness which can be focused on in afternoon Skills Development classes and Wednesday electives.

SELC Afternoon Tutorials and Workshops

All SELC students, regardless of level, are able to sign up for our afternoon tutorials and workshops. In these sessions, each student can discuss any concerns with their experienced teachers regarding specific areas of weakness in their language development, and receive individualized advice on how they can improve.

These sessions are ideal for motivated students hoping to make faster progress towards achieving their goals or entrance to further study.

SELC regularly changes the options to provide a variety of after-class activities for our students.

Pronunciation

With the help of a teacher students can improve their English pronunciation which at the same time will help with listening skills. Lots of fun and designed for all levels of English.

Conversation

Students improve their speaking skills by joining in conversations with other students. Guided by a teacher, students will learn useful expressions for talking to friends and strangers.

Homework Club

Students having trouble with their homework can join our Homework Club and get help from teachers in a face-to-face tutorial.

Supervised E-learning

A teacher will guide students through the process of how to access and use SELC's Online Learning Platform so they can study in their free-time.

Fitness Workshop

A professional personal trainer guides students through a group exercise class. There are two guided 30-minute classes and the gym is open for students for 1 hour for free exercises every Friday.
