Canadian Nursing Review

For Internationally Educated Nurses

PROGRAM DESCRIPTION

If you are an IEN wanting to become a Registered Nurse or Licensed Practical Nurse in Canada, the Canadian Nursing Review Program can provide you with the skills required to meet Canadian standards and language in preparation of achieving your nursing license.

The Program is made up of 6 main components:

1. Medical Terminology & Communication
2. CELBAN Test Preparation
3. Canadian Nursing Review (includes a clinical experience)
4. Final Clinical Competencies Review & Nurse Licensing Exam Prep (NCLEX-RN or CPNRE)
5. The Co-Op Education Work Experience
6. Leadership in Nursing

Medical Terminology & Communication is designed for IENs who originally studied medical terminology in a language other than English, and who now need the English terminology in order to work in a Canadian health care setting. It covers vocabulary, reading, writing, conversation and pronunciation, abbreviations and terminology used in nursing in North America. **CELBAN Test Prep** helps students maximize their English competency test score which is required for Nurse registration in Canada. CELBAN is currently one of the only English tests recognized as proof of language proficiency by all Canadian Nursing regulators across the country.

The Canadian Nursing Review, Clinical Competencies and Nurse Licensing Exam Prep courses teach skill-development, critical-thinking training for nursing judgments, test question approach strategies and cultural awareness. Students have the opportunity to develop their practical experience during on-site laboratory sessions, case-study simulations, and during a clinical experience at a local health care facility, to ensure they can be well prepared for safe and effective practice in the workplace.

The Co-Op Work Experience is an essential component of the program. Students have the opportunity to complete a co-op work experience at a Canadian hospital or health care facility. Nursing procedures vary from country to country, so the work experience offers invaluable training in nursing in a North American health care environment.

Leadership in Nursing equips students with much needed entry-level leadership and management skills.

WHAT YOU CAN EXPECT TO ACHIEVE:

- Successful qualification as a Canadian Registered Nurse (RN) or Licensed Practical Nurse (LPN)
- A passing grade on an English competency test (ie. CELBAN, IELTS) that is recognized by a Canadian nursing regulatory body
- A favorable result on your clinical competency assessment (SEC, OSCE, NCAS)
- Greater knowledge, skills and confidence
- Gainful employment as a Nurse in Canada
- An increased quality of life

ADMISSION REQUIREMENTS

- Must be registered as an RN in country of origin
- Have a minimum of 1125 hours of RN experience within the last 4 years*
- Minimum IELTS Academic score of overall 6.0, OR equivalent
- Pass an interview with an OMNI advisor
- *currently international student applicants must also have at least 2 years minimum of RN work experience within the past 6 years.*

Following the start of their program, and prior to the clinical experience component of their program, students must also provide a clear criminal background check, current CPR certification, and evidence of up-to-date immunizations as required by clinical sites.

*NCLEX-RN = National Council Licensure Examination for Registered Nurses
*CPNRE = Canadian Practical Nurse Registration Examination

CELBAN = Canadian English Language Benchmarks Assessment for Nurses

SCHEDULE

18 months, full-time, diploma program. Includes English training and work experience.

Classes are held Monday through Thursday from 9am to 3pm, and Fridays from 9am to 12pm.

Please see Tuition & Fees chart for associated costs.

Canadian Nursing Review

For Internationally Educated Nurses

ADVANCED

PROGRAM DESCRIPTION

The Advanced program was designed for those nurses who have a higher level of English competency and do not need the language and medical terminology training. IENs from countries where the basic nursing education followed an English curriculum would also be eligible for this program.

If you are an IEN wanting to become a Registered Nurse or Licensed Practical Nurse in Canada and you have a minimum IELTS 6.5 overall or equivalent, then the Canadian Nursing Review—Advanced is the right program for you.

The Program is made up of 4 main components:

- 1) Canadian Nursing Review (includes a clinical experience)
- 2) Final Clinical Competencies Review & Nurse Licensing Exam Prep (NCLEX-RN or CPNRE)
- 3) The Co-Op Education Work Experience
- 4) Leadership in Nursing

Please see the full program on the preceding page for a detailed breakdown of each component.

Outcomes are identical to the Canadian Nursing Review program (please see the “What you can expect to Achieve” column on the preceding page).

ADMISSION REQUIREMENTS

- Must be registered as an RN in country of origin
- Have a minimum of 1125 hours of RN experience within the last 4 years*
- Minimum IELTS Academic score of overall 6.5, OR equivalent
- Pass the OMNI Comprehensive Nursing Assessment
- Pass an interview with an OMNI advisor

** currently international student applicants must also have at least 2 years minimum of RN work experience within the past 6 years.*

Following the start of their program, and prior to the clinical experience component of their program, students must also provide a clear criminal background check, current CPR certification, and evidence of up-to-date immunizations as required by clinical sites.

National Nursing Assessment Service (NNAS): The NNAS provides a streamlined assessment service for Internationally-Educated Nurses (IENs) interested in applying for nurse registration in Canada. All IENs must first apply through the NNAS.

After assessment by the NNAS, the applicable provincial nursing regulatory body may require further assessment or courses (in addition to the training provided by OMNI College), which may create delays in your process. All applicants to OMNI are interviewed by an OMNI Advisor, so we encourage all applicants to discuss their personal timing plan during their interview.

For more information, please visit their website at www.nnas.ca

SCHEDULE

12 months, full-time, diploma program. Includes work experience.

Classes are held Monday through Thursday from 9am to 3pm, and Fridays from 9am to 12pm.

Please see Tuition & Fees chart for associated costs.

CELBAN Test Preparation

Canadian English Language Benchmarks Assessment for Nurses

WHAT IS CELBAN?

CELBAN stands for the Canadian English Language Benchmarks Assessment for Nurses. It is the first language assessment test designed specifically for Internationally-Educated Nurses.

Applicants for RN (Registered Nurse) or LPN (Licensed Practical Nurse) registration in Canada must demonstrate fluency in English. The CELBAN test has been approved by all the nurse licensing bodies in Canada as a measure to evaluate the applicant's proficiency in English.

The content of all tasks in the CELBAN test are based on data collected from the analysis of the English language demands of the nursing profession. To ensure accuracy, tasks were created by the test developers with input from nursing instructors and consultants.

COURSE DESCRIPTION

The CELBAN Test Preparation course offered at OMNI College is for non-native speakers of English at the upper-intermediate level of English proficiency who wish to improve their English skills in preparation to practice nursing in Canada. This course also helps Internationally-Educated Nurses prepare to write the CELBAN Test and maximize their test score.

The course focuses on improving a student's ability to actually **use** the language rather than to simply **know** the language. This concentrated focus enables our experienced instructors to teach you the quickest and most effective methods to improve your test score.

Our program focuses on activities which allow students to practice all the skills they are required to perform on the test. The focus is on intensive speech practice with emphasis on pronunciation accuracy and speech fluency.

HOW DOES IT WORK?

CELBAN testing covers 4 components:

1. Listening
2. Reading
3. Writing
4. Speaking

The CELBAN listening, writing and reading assessments are administered as a group test totaling approximately 3 hours.

The CELBAN speaking assessment is administered individually and lasts approximately 20 to 30 minutes.

The minimum scores currently required in BC by the BCCNP is: listening 10; reading 8; writing 7; and speaking 8.

ADMISSION REQUIREMENTS

- IELTS Academic score of 6.5 overall, OR equivalent*
- Pass an interview with an OMNI advisor

** Interested in applying but you don't have an IELTS score? If you are already in Canada please contact us for a possible in-house English Assessment equivalent.*

SCHEDULE

4 weeks intensive full time course. Day time classes.

Please see Tuition & Fees chart for associated costs.

**Note: successful completion of this course does not guarantee a passing grade on the CELBAN test.*

Medical Terminology & Communication

COURSE DESCRIPTION

OMNI's Medical Terminology & Communication course is designed for internationally-educated nurses and other health professionals who learned medical terminology in a language other than English, and who want to improve their communication within the health care workplace. The course focuses on improving language fluency by practicing listening, speaking, reading and writing tasks in the context of a Canadian health care setting.

Nurses, doctors, pharmacists, physical therapists, international health care students and other medical professionals where English is not their first language would be best suited for this course.

The course teaches not just terminology but also assists the student to apply the terminology and effectively communicate in an English-speaking workplace environment. Students who successfully complete the course will be able to:

- Identify all human anatomy-related terms
- Be able to communicate disorders and diseases
- Describe procedures for various emergencies
- Understand terms used in the context of psychiatry/mental health, and pharmacology
- Describe common workplace medications, treatments and their administration

Coursework includes in-class presentations, working on presentation skills (speaking clearly, using a loud voice, facial and body expressions, etc) and interpersonal communication skills.

ADMISSION REQUIREMENTS

- Minimum of 19 years of age or older
- IELTS Academic score of 6.0 overall, OR equivalent*

** Interested in applying but you don't have an IELTS score? If you are already in Canada please contact us for a possible in-house English Assessment equivalent.*

SCHEDULE

18 weeks, full-time course.

Classes are held Monday through Thursday from 9am to 3pm, and Fridays from 9am to 12pm.

Please see Tuition & Fees chart for associated costs.
